# OncoCyte to Report Second Quarter Financial Results on August 11, 2016

Jul 21, 2016

ALAMEDA, Calif., July 21, 2016 (GLOBE NEWSWIRE) -- OncoCyte Corporation (NYSE MKT:OCX), a developer of novel, non-invasive blood based tests for the early detection of cancer, announced today that it will release its financial and operating results for the quarter ended June 30, 2016 on Thursday, August 11, 2016 after the close of the U.S. financial markets. The Company will host a conference call on Thursday, August 11, 2016 at 5:00 p.m. ET / 2:00 p.m. PT to discuss the results along with recent corporate developments.

The dial-in number in the U.S./Canada is 877-524-8416, for international participants the number is 412-902-1028. For all callers, refer to Conference ID 13642081. To access the live webcast, go to the investor relations section on the company's website, http://investors.oncocyte.com/events-and-presentations.

A replay of the conference call will be available for seven business days beginning about two hours after the conclusion of the live call, by calling 877-660-6853 toll-free (from U.S./Canada); international callers dial 201-612-7415. Use the Conference ID 13642081. Additionally, the archived webcast will be available http://investors.oncocyte.com/events-and-presentations.

**About OncoCyte Corporation**

OncoCyte is primarily focused on the development and commercialization of novel, non-invasive blood and urine ("liquid biopsy") diagnostic tests for the early detection of cancer to improve health outcomes through earlier diagnoses, to reduce the cost of care through the avoidance of more costly diagnostic procedures, including invasive biopsy and cystoscopic procedures, and to improve the quality of life for cancer patients. While current biopsy tests use invasive surgical procedures to provide tissue samples in order to determine if a tumor is benign or malignant, OncoCyte is developing a next generation of diagnostic tests that will be based on liquid biopsies using blood or urine samples. OncoCyte's pipeline products are intended to be confirmatory diagnostics for detecting lung, bladder and breast cancer. OncoCyte's diagnostic tests are being developed using proprietary sets of genetic and protein markers that differentially express in specific types of cancer.
