

## Oncocyte Reports Preliminary Fourth Quarter and Full Year 2022 Financial Results and Plans to File Form 12b-25 to Extend Filing Date of Its Form 10-K

Mar 31, 2023

IRVINE, Calif., March 31, 2023 (GLOBE NEWSWIRE) -- Oncocyte Corporation (Nasdaq: OCX), a precision diagnostics company, today announced plans to file a Form 12b-25 with the U.S. Securities and Exchange Commission regarding its Annual Report on Form 10-K and reports preliminary financial results for the full year ended December 31, 2022. The Company is completing its final review of the information required to be presented for the relevant period. The Form 12b-25 provides the Company with an additional 15 calendar days to complete its assessment and allows its independent registered public accounting firm extra time to complete its audit of the Company's financial statements before filing its Form 10-K reports.

The Company currently anticipates filing the 2022 Form 10-K as soon as practicable and expects that, in compliance with Rule 12b-25, it will be filed no later than April 17, 2023.

"The Company continues to work diligently to submit the filing. Turning to our recent performance, we have committed to a strategic shift from a service lab model to a product-driven revenue model with low-cost infrastructure and scalable high-margin distributable content," said Joshua Riggs, CEO. "With a reduced cash burn, we believe this puts us in a better position to support the future of our core products and rapidly deliver on our major milestones ahead. We are confident that a kitted product approach puts our unique technology in the hands of researchers at every level, from pharma to academia, encouraging research on the role of the tumor microenvironment in oncology and transplant graft health and viability."

### Recent Highlights:

- Appointed Joshua Riggs to President, CEO, and to its Board of Directors
- Appointed seasoned healthcare executive Lou Silverman to its Board of Directors as Lead Independent Director
- Announced the divestiture of DetermaRx, resulting in expected savings of approximately \$30 million in operating cost and development obligations over the next two years
- Implemented cost reduction plans to drive expected quarterly average 2H 2023 cash burn below \$6 million, down from \$10.5 million in 2H 2022
- Focused development of VitaGraft and DetermaIO in 2023 with DetermaCNI in development pipeline for 2024
- Entered into an amendment to the Chronix Merger Agreement in February 2022 to reduce contingent liabilities and open a kitting opportunity for VitaGraft
- Completed VitaGraft RUO feasibility, anticipated to enter pre-manufacturing optimization in 2Q 2023

- Initiated DetermaIO multicenter SWOG study for Triple Negative Breast Cancer and had Metastatic Colorectal Cancer data accepted for publication in Clinical Cancer Research
- Submitted DetermaIO reimbursement dossier to MolDx in December 2022

## Oncocyte Forward Looking Statements

Any statements that are not historical fact (including, but not limited to statements that contain words such as "will," "believes," "plans," "anticipates," "expects," "estimates," "may," and similar expressions) are forward-looking statements. These statements include those pertaining to, among other things, the

expectation that the Company's cash runway can support future product development milestones, the expected savings of approximately \$30 million in operating cost & development obligations over the next two years as a result of the divestiture of DetermaRx, the expectation that cost reduction plans will drive quarterly average 2H 2023 cash burn below \$6M, the anticipation that DetermaCNI will be in the development pipeline for 2024, the anticipation of kitting opportunities for VitaGraft, the anticipation that VitaGraft RUO will enter pre-manufacturing optimization in Q2 2023, the belief that the Company is poised to rapidly deliver on major milestones, the belief that a kitted product approach will put the Company's unique technology in the hands of researchers at every level and encourage research on the role of the tumor microenvironment in oncology and transplant graft health and viability, and other statements about the future expectations, beliefs, goals, plans, or prospects expressed by management. Forward-looking statements involve risks and uncertainties, including, without limitation, the potential impact of the recent COVID-19 pandemic on Oncocyte or its subsidiaries' financial and operational results, risks inherent in the development and/or commercialization of diagnostic tests or products, uncertainty in the results of clinical trials or regulatory approvals, the capacity of Oncocyte's third-party supplied blood sample analytic system to provide consistent and precise analytic results on a commercial scale, potential interruptions to supply chains, the need and ability to obtain future capital, maintenance of intellectual property rights in all applicable jurisdictions, obligations to third parties with respect to licensed or acquired technology and products, the need to obtain third party reimbursement for patients' use of any diagnostic tests Oncocyte or its subsidiaries commercialize in applicable jurisdictions, and risks inherent in strategic transactions such as the potential failure to realize anticipated benefits, legal, regulatory or political changes in the applicable jurisdictions, accounting and quality controls, potential greater than estimated allocations of resources to develop and commercialize technologies, or potential failure to maintain any laboratory accreditation or certification. Actual results may differ materially from the results anticipated in these forward-looking statements and accordingly such statements should be evaluated together with the many uncertainties that affect the business of Oncocyte, particularly those mentioned in the "Risk Factors" and other cautionary statements found in Oncocyte's Securities and Exchange Commission (SEC) filings, which are available from the SEC's website. You are cautioned not to place undue reliance on forward-looking statements, which speak only as of the date on which they were made. Oncocyte undertakes no obligation to update such statements to reflect events that occur or circumstances that exist after the date on which they were made, except as required by law.
